Functional storage and display of magazines!

With the acrylic display on the cabinet door, it is easy to find the specific magazine you want to read. Open the cabinet door, and you will find older versions of the magazines easily and logically stored. There is also room for A4 vertical storage boxes inside the cabinet.

The display is available in 3 different heights:

152 cm - 3 cabinets

182 cm - 4 cabinets

212 cm - 5 cabinets

The depth of the shelves inside the cabinet is 30 cm and the total depth of the unit is 36 cm. The display is also available as a double sided display, the total depth of the double sided unit being 69 cm.

You can choose to have the display (made of MDF) painted in one of almost 300 standard colours to match the interior design of the rest of the library.

This elegant and streamlined display fits in nicely with several of our main products: Slimline, Radius, our Box browsers and 60/30 shelving with London panels.

Use the display as a piece of furniture on its own or as a room divider to help create just the right atmosphere.
