

The magazine display and storage shelving systems become more and more popular, not only in the library but also in various public areas where magazines need to be exposed and stored in a user friendly way. With our two different systems you can organize your magazines in an easy-to-find way and at the same time logically store older versions of the magazines.

These elegant and streamlined displays fit in nicely with several of our main products; Slimline, Radius, Box and 60/30 Steel Shelving with London panel and top shelves. Use the magazine display and storage shelving as a piece of furniture on its own or as a room divider to help create just the right atmosphere.

Ordrup Display

ORDRUP DISPLAY

Ordrup Display is a combined magazine display and storage unit based on Slimline upright panels with painted end panels, painted cabinet doors and acrylic display. The end panel comes with a flat front edge. The full back and kickplate are painted. The height of the kickplate is different for all three shelving heights to cover the space between the bottom shelf and the floor in the best way for each height.

Behind the cabinet doors with acrylic display are compartments providing A4 vertical storage boxes for older versions of the magazines.

The Ordrup display is made of painted MDF.

HEIGHTS

Ordrup Display comes in 3 heights; 152, 182 and 212 cm. Heights include adjustable feet (max. 2 cm).

WIDTHS

The bays are available as starter and add-on bays. A starter bay has two outside end panels while an add-on bay has one intermediate end panel.

DEPTHS

The end panels come in 2 depths; 36 cm for 30 cm deep shelves (single-sided) and 69 cm for 2 x 30 cm deep shelves (double-sided).

ORDRUP DISPLAY

SINGLE-SIDED CONFIGURATIONS

Complete shelving system with end panels, full back, kickplate, doors with acrylic display, shelves, top shelf and fittings. All parts, except the acrylic display, are made of painted MDF.

Singles - display shelf and storage

SINGLES

Singles is a combination of wooden end panels and steel shelves. The end panel comes in Softline or Slimline shape. The full back and kickplate that comes with the product are made in melamine. The kickplate for end panel height 182 cm is 12 cm and the kickplate for end panels height 212 cm is 21 cm. The kickplate will cover the space between the bottom shelf and the floor in an elegant way.

Behind the steel lift-up display shelves are compartments providing space for piles of back issues.

It is to be noted that the only difference between Softline and Slimline is the shape of the front edge of the end panels. Softline comes with a 25 mm superelliptical shaped edging of solid wood and Slimline comes with a 4 mm flat front edge of solid wood.

The Singles display is available in veneer and painted configurations.

HEIGHTS

Singles wood shelving comes in 2 heights; 182 and 212 cm. Heights include adjustable feet (max. 2 cm).

WIDTHS

The bays are available as starter and add-on bays. A starter bay has two outside end panels while an add-on bay has one intermediate end panel.

DEPTHS

The end panels come in 2 depths; 36 cm for 30 cm deep shelves (single-sided) and 69 cm for 2 x 30 cm deep shelves (double-sided).

SINGLES
