CLIP TABLE

Clip table
Design: Komplot Design

The Clip table is designed by Komplot Design. The table is a functional stackable table system that enables easy removal and rearranging of the room. With it's light weight you avoid heavy lifting as you stack the tables on top of each other and transport them with a corresponding trolley. The table is suitable for large assembly halls, classrooms and cafeterias as well as the simple meeting. The Clip table, with its elegant, simple design and rugged construction is a good choice.
