LABYRINTH BOOK TOWER

WWW.BCILIBRARIES.COM

Presenting your books means portraying your library

High volume storage of books, magazines and binders

This Labyrinth XL Tower is ideal for use in both libraries and offices for storage of many types of media. The design of this piece of presentation furniture is certainly outside the box, whilst still being intuitive and natural. The shelves and niches are arranged in a logical and exciting fashion and make the tower a perfect example of the often quoted design theory: Form follows function!

Book Tower LABYRINTH XL

Wooden body, plastic laminate.

As shown: Outside - traffic white, inside flame red.

Total width W 690 mm (27.2"), D 580 mm, (27.2"),

H 1,192 mm (46.9") 3 High Unit (12 Openings)

H 1,504 mm (59.2") 4 High Unit (16 Openings)

H 1,850 mm (72.8") 5 High Unit (20 Openings)

Units available with or without magazine flaps.

Book Openings

W 360 mm (14.2"), D 290 mm (11.4"), H 321 mm (12.6")

Unit comes with steerable wheels, 2 with brakes.

The Labyrinth XL is available in three heights – with either three, four or five levels. It is made of wood with a plastic laminate coating and equipped with four casters, two of which are lockable.

It is, as standard, delivered in white. (Other colors available per attached color chart)

The metal flaps are to be ordered separately and are available in wide range of colors.

Order-No

B **7486** 003 with 3 height units

B **7486** 004 with 4 height units

B **7486** 005 with 5 height units

Doors

B **7486** K00 Metal (see attached chart for colors)

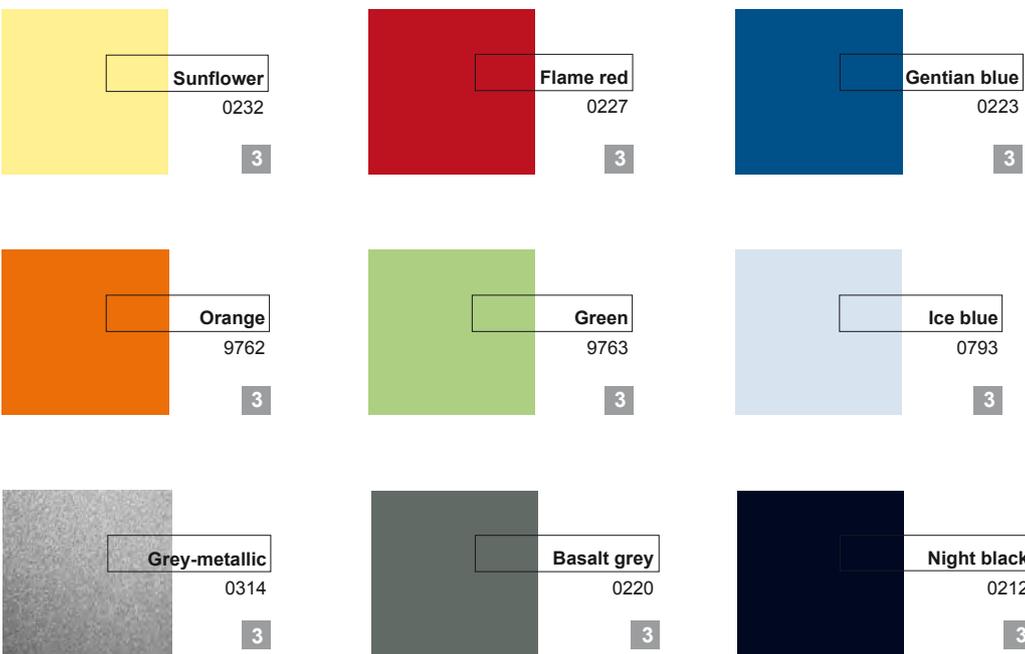

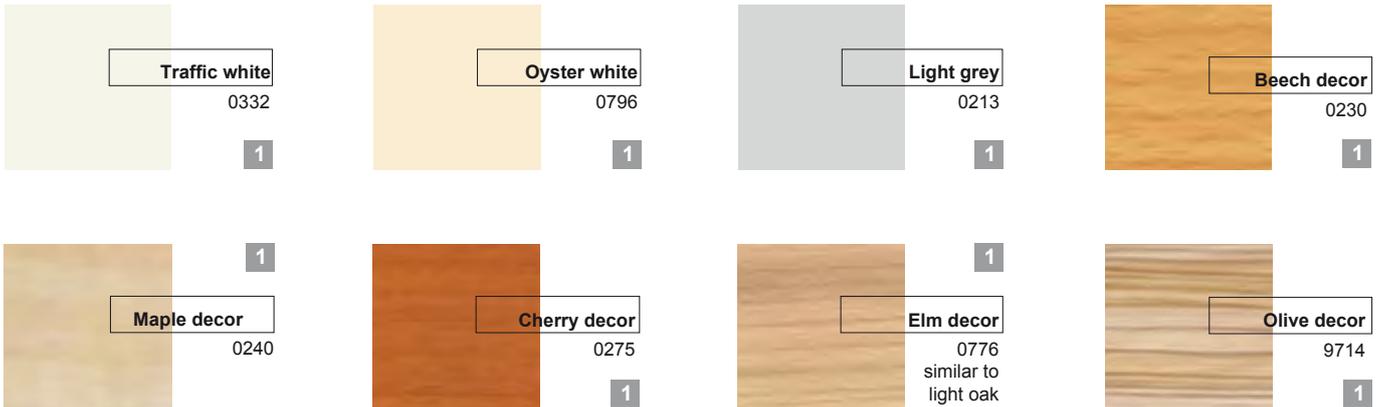

Usually books are placed in shelves. But "normal" is not always desired and therefore we added to the Labyrinth Book Tower and Book Shelf line with a larger tower which can be used for magazines or full size books. The design of this brand-new presentation furniture is outside the box, but quite obvious and natural.

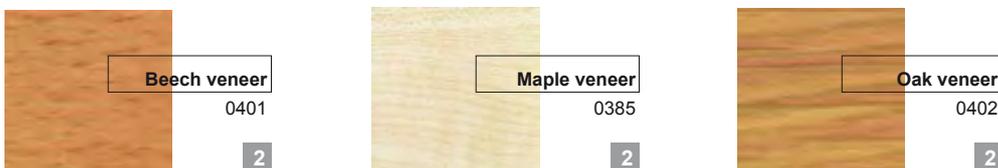

Surfaces

from solid wood veneer and plastic

Wooden surfaces are either directly plastic-coated or covered with an HPL laminated plastic, depending on their application. Differences in color underline the characteristics of solid wood surfaces and cannot be avoided. Solid white changes its colors under the influence of light. Table and work surfaces with solid wood veneer have only limited abrasion resistance. We recommend our highly resistant plastic decors for these types of surfaces. We use environmental-friendly lacquers for our solid wood surfaces.

DESIGN OPTIONS

Other surfaces and veneers upon request.
