SIMPLY UNIVERSAL TABLES

WWW.BCILBRARIES.COM

Simply universal! There is nothing as simple as a table. But today's library table can do a lot more than you will notice at first glance. It is no longer a simple "reading table". Electricity and data have to be delivered, cables hidden, computers installed and above all, it has to stay flexible.

Combination examples reading tables

Why System Tables?

A table is a table. But a system table is a table which can be combined with other table shapes. Loose arrangement or fixed combination, now or later. And the accessories, too, such as hidden cable conducts or pre-installed table lamps as well as socket units make this table series a system.

Timo Mildenberger, product development

SIMPLY UNIVERSAL TABLES

Accessories - Have your desks fabricated just like you want them!

Surfaces

from solid wood veneer and plastic

Wooden surfaces are either directly plastic-coated or covered with an HPL laminated plastic, depending on their application. Differences in colour underline the characteristics of solid wood surfaces and cannot be avoided. Solid wood changes its colours under the influence of light. Table and work surfaces with solid wood veneer have only limited abrasion resistance. We recommend our highly resistant plastic decors for these types of surfaces. We use environmental-friendly lacquers for our solid wood surfaces.

DESIGN OPTIONS

Other surfaces and veneers upon request.

Colours for metal coatings

The coloration of the metal parts is made by a highly abrasion-proof and environmental-friendly baking powder-coating.
With reservation for colour deviations to original RAL register.
Antibacterial equipping of surfaces upon request.

RAL 5003 Sapphire blue
Fine structure (1)
RAL 9011 Graphite black
Fine structure (1)

DB 702 Iron mica light
Fine structure (1)
DB 703 Iron mica dark
Fine structure (1)

Other colours, fine structures and glimmer lacquerings upon request.

(1) We do not recommend fine-structured surfaces for shelf boards as the books will slip easily!
